Health Centers

JWCH INSTITUTE

A dental home is the ongoing relationship between the dentist and the patient, inclusive of all aspects of oral health care delivered in a comprehensive, continuously accessible, coordinated, and family-centered way.

A dental home should be able to provide the following:

- Preventive and comprehensive oral health care services for children and adults
- Comprehensive assessment for oral diseases and conditions
- Individualized preventive oral health program based upon caries-risk assessment and periodontal disease assessment
- Dental services include deep cleanings, fillings, root canals, extractions and dentures
- Information about proper care of teeth and gums
- Dietary counseling
- Referrals to dental specialists when care cannot be directly provided within the dental home
